

## MAXWELL EMERSON

**OBJECTIVE** Seeking an Information Systems Technology opportunity with a progressive company that will allow me to demonstrate my technical skills to help achieve both business and financial goals leveraging technology.

- SKILLS & ABILITIES**
- Programming and Design of Web Services and Infrastructure for Consumer and Business Solutions
  - Technical Languages include HTML, Java, PHP, basic Python, Job Control Language (JCL) and brief experience with supportive Frameworks (Struts, Spring), limited COBOL.
  - A/B Testing for best Click Through Rates, (CTR) and producing optimal Page per View (PPV).
  - Business Analysis, Program/Project Management Experience, with programs such as: BitLocker, Github, Google Analytics, JIRA, and Basecamp.
  - Introductory exposure to Software Development methodologies includes Use Case, Unified Modeling Language (UML) and Object techniques.
  - Customized PIC (Programmable Interface Controllers) chip encoding.
  - Entrepreneur owner of a successful on-line social media website which recorded peak hits of 10,000 hits weekly. Site development leveraged off-shore contracting resources in support of content and collaboration of platform improvements. Site information can be provided upon request.
  - Operating Systems: Windows XP/Vista/7/8/10, Mac OS X, iOS, Z/OS and Ubuntu Linux
  - See **MaxwellEmerson.com** to find my on-line resume along with additional website details.

**EXPERIENCE**

**Business Systems Analyst – Mainframe Network**  
May 2017 - Present  
\*Upon Graduation\*

**US BANK INTERN - MAINFRAME/TECHNICAL SERVICES**  
June 2016 -August 2016  
Experienced in a comprehensive program of all aspects of a Fortune 500 Company's mainframe. Utilized skills to rebuild a Logical Partition (LPAR). Also, tasked with creating an Operations Rotational Program within U.S Bank in which will be implemented in the near future. Overall program allowed direct participation with leadership and executives within U.S Bank.

**SELF EMPLOYED – WEB DESIGN / SEO (SEARCH ENGINE OPTIMIZATION)**  
2010-Present  
Created and manage websites that amassed to 30,000+ visitors a month. Fiscal revenue spanning two social media sites expected to exceed 100% growth annually. Have received multiple buyout offers.

**CUSTOM WEB SOLUTIONS AND ON-LINE CONTRACTING**  
2010-2013  
Contracting services and customized support of imbedded code for Xbox360 gaming handheld and consoles as well as imbedded chip encoding to enhance the gaming experience. Marketed solutions online and sold over 200 handheld units.

**STAGE MANAGER/SOCIAL MEDIA, MAURIS INC**

2004-2013

Successfully designed, constructed, coordinated, and directed theatrical props in support of jazz, ballet, kick line and tap recitals spanning ten years. Briefly managed social media for a period of time.

---
